

Church Lane Drs Surgery

New Build. Design And Build

Total value £40K - 2016

Wadys have recently completed a new local GP Surgery. Contracted by VE Parrott and in association with Piper Whitlock Architecture Ltd, Wady's were tasked with the electrical design and installation of the various systems listed below.

The surgery consists of large waiting/children's area, reception, five consulting rooms, treatment room, staff/meeting room and toilet facilities.

Our works included the following services:

- Electrical design
- Distribution systems
- Lighting/emergency lighting installation
- Power installation
- Fire alarm system
- Panic Alarm/Nurse Call system
- Intruder alarm system
- CCTV system
- Data infrastructure
- Terrestrial TV system

Wadys delivered the project on time and on budget.
